

# COMMERCIAL STRENGTH TRAINING

durability

innovation

value

## *ST760* leg/calf press

Durability, innovation, and value are combined to create a strength training unit that is adaptable for any commercial setting.

- Adjustable seatback allows users to define their desired range of motion and achieve maximum results while performing leg and calf strengthening exercises
- Durable, long-lasting chrome and powder-coated steel frame is designed to resist scratches and provide years of worry-free performance
- Double-stitched Boltaflex® upholstery over 2-inch high-density foam provides durability, lasting comfort, and support

Instructional placards displayed on the weight stack shield define exercise operation

Oversized non-slip rubber footplate gives added durability and traction

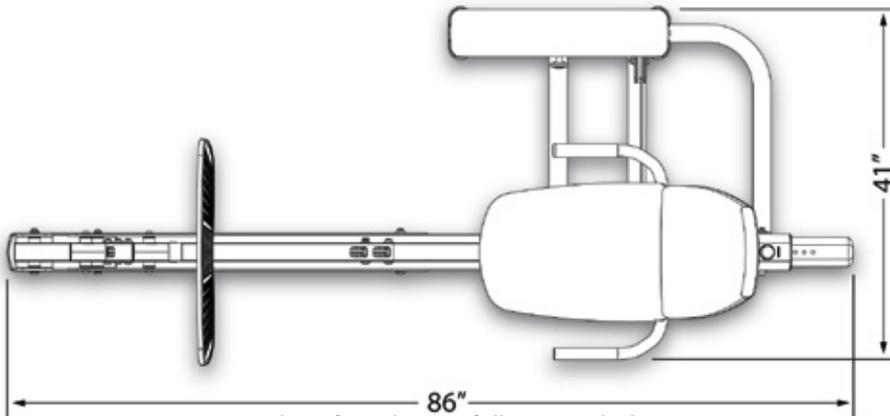

Cable routing is designed to generate 200% effective resistance

Backrest features eight range of motion adjustments to accommodate a more diverse group of people

Durable powder-coat frame resists scratches

When footplate is fully extended
